As members of EU-CORD we recognise that to realise our goal of making a significant and recognisable contribution towards the eradication of poverty and social exclusion we must invest time and resources in promoting quality in our work. As part of our membership of EU-CORD we make a collective commitment to becoming quality organisations providing evidence of:

- Quality in results

In this respect we are each committed to learning from our work to ensure a process of continuous improvement in all that we do.

- Finding ways to share our learning with each other so that all members of the network have the opportunity to improve the effectiveness of their work

- Providing mutual assurance to each other to ensure that the reputation of EU-CORD for manifesting quality in the work of its members is enhanced

Thus we ensure that our Christian ethos is outworked in a framework of good practice.
